Steps to Start an E- Business

The following are the initial steps involved in the process to start an online business and start selling items instantly:

- **Business structure and Registration**

Operating an E-Commerce or E-Business does not exclude from requiring certain business licenses and permits. The company must be registered before starting the trade. Registration includes business name, trade name, type of company. (e.g., Private Ltd, Public Ltd, Partnership or Sole Proprietor, LLP - limited liability partnership etc.) The company must be registered to get the bank account opened in the company name and obtaining GST registration documents easily. Any one is allowed to enroll in an online platform and start selling immediately, but there will be no limited liability protection provided to litigation. Thus, if one need to sustain and grow it is best to start with an LLP or a company. http://www.mca.gov.in/
