

CHAPTER 09

CNC Machines

GEZYPB

Learning Objectives

- Students to know how the machines are controlled by numerical control.
- To know about the computer numerical control machines, its elements and functions of elements.
- To know about the classification of CNC machines in detail.
- To know about the programme of CNC machine.

Nandrikku viththaagum nallozhukkam theeyozhukkam
Endrum idumbai tharum. –kural 138

Property of conduct is the seed of virtue; improperty will ever cause sorrow.

CONTENTS

9.1 Introduction
9.2 Numerical control
9.3 Computer Numerical control
9.4 Elements of CNC machines.
9.5 Software
9.6 Input Media
9.7 Machine control unit
a. Inbuilt MCU
b. Swivel MCU
c. stand alone MCU
9.8 Driving devices
9.9 Machine tool.
9.10 Classification of CNC machine tools.
9.11 Advantages of CNC machines over conventional machine tools.
9.12 Programming for CNC machines.
9.13 Advancements in NC machines.
