

CHAPTER 03

Shaping Machine

U6EMF7

Learning Objectives

- To understand the students about important parts of shaping machine, application of machine mechanism, various types of operations performed in the machine.

Uruvu kandu ellaamai vaendum urul
Perundhaerkku achchaani annar udaiththu. –Kural 667

Despite not men of modest bearing, look not at form, but what men are, for some there live, high functions sharing, like linch–pin of the mighty car.

CONTENTS

3.1 Introduction
3.2 Process of machining
3.3 Main parts of the shaping machine
3.4 Types of shaping machine
3.5 Quick return mechanism
3.6 The size of a shaper
3.7 Adjusting the length of stroke
3.8 Method of table movement
3.9 Pawl and Ratchet mechanism
3.10 Swivel tool head
3.11 Work-Holding devices
3.12 Types of shaper tools
3.13 Setting of shaper table, vice and Tool head
3.14 Types of shaping operations
3.15 Special operations
3.16 Cutting speed, depth of cut and feed
3.17 Coolant
3.18 Safety precautions
