

CHAPTER 04

Grinding Machine

MDBE29

Learning Objectives

- Students to understand the various types of grinding machines, different types of operation performed in it, Natural and Artificial abrasives and its type, manufacturing of grinding wheel and mounting of grinding wheel, dressing truing and super finishing process.

Puran thooimai neeraan amaiyum aganthooimai
Vaaimaiyaar kaana padum. –Kural 298

Outward purity the water will bestow, inward purity from truth alone will flow (or) purity of body is produced by water and purity of mind by truthfulness.

CONTENTS

4.1 Introduction
4.2 Types of grinding machine
4.3 Non precision grinding machine
4.4 Precision grinding machine
4.5 Size of grinding machine
4.6 Centreless grinding
4.7 Grinding operations
4.8 Wet and Dry grinding
4.9 Grinding wheel
4.10 Abrasive
4.11 Grinding wheel specification
4.12 Mounting grinding wheel
4.13 Glazing, loading and chattering
4.14 Balancing of grinding wheel
4.15 Cutting speed, Feed and Depth of cut
4.16 Precision operations
4.17 Safety precautions
