3. **Intermediate Colours:** When a primary and an adjacent secondary colour is mixed an intermediate colour is produced. There are six intermediate colours. They are

Yellow + Green = Yellow Green.

Blue + Green = Blue Green.

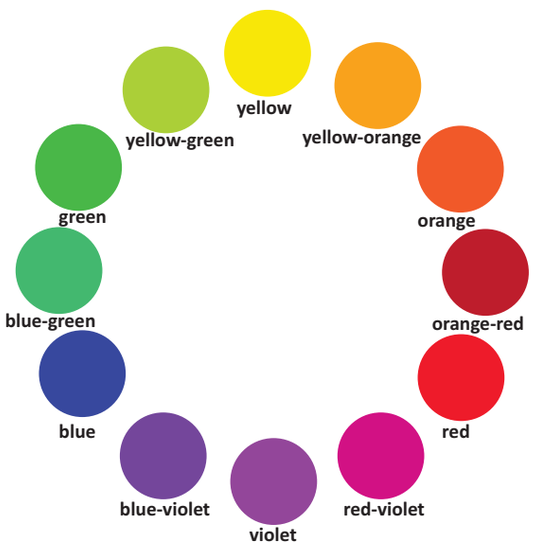

Blue + Violet = Blue Violet

Red + Violet = Red Violet

Red + Orange = Red Orange

Yellow + Orange = Yellow Orange.

The three primary colours, three secondary colours and six intermediate colours form the outer circle of the Prang colour chart.

4. **Tertiary Colours:** When two secondary colours are mixed a tertiary colour is produced.

There are three tertiary colours. They are

Green + Orange = Grey Yellow or Smoky Yellow.

Orange + Violet = Grey Red or Old brick Red.

Green + Violet = Grey Blue or Slate Blue.

5. **Quaternary Colours:** When two tertiary colours are mixed a quaternary colour is produced. There are three quaternary colours. They are

Smoky Yellow + Old Brick Red= Grey Orange or Buff.

Smoky Yellow + Slate Blue = Grey Green or Olive Green

Old Brick Red + Slate Blue = Grey Violet or Prune.

ACTIVITY 2

Take red colour pencil and yellow colour pencil and fill up the circles. In the third circle apply both red and yellow colours at the same time in equal proportion and see the colour change. For the second one, take red and blue colour pencils and apply simultaneously in the third circle.(**Answer: Refer Classification of colours-Prang colour chart-Secondary colours)**

1. Red + Yellow = ?

○ + ○ = ○

2. Red + Blue = ?

○ + ○ = ○
