9. Pick out the wrong statement
   a). High fibre diet is given to patients who are obese
   b). High calorie diet is prescribed for underweight individuals
   c). Fibre restricted diet is given in acute infection and fevers
   d Normal diet is given to replace fluids lost from vomiting or diarrhoea.

10. A person complains to the doctor of sudden onset and passage of watery stool which has lasted for 48 hours. What treatment strategy should be followed immediately.
   a) Give him Oral Rehydration therapy
   b) Give him soft bland food.
   c) Give him only juices and water
   d) Give him a normal diet

11. The main function of liver is carbohydrate metabolism which is through glucogenesis. Glucogenesis from the statement given below is
   a) Conversion of glucose to glycogen
   b) Conversion of glycogen to glucose
   c) Conversion of amino acid into other non-essential amino acid
   d) Conversion of carotene into vitamin

12. Soluble fibre is present in _____
   a. Greens
   b. Cereals
   c. Pulses
   d. Oats

13. Oxygenated blood for the lungs reach the heart through _____
   a. Pulmonary vein
   b. Pulmonary artery
   c. Aorta
   d. Superior vena cava

14. Myocardial infarction is otherwise known as _____
   a. Stroke
   b. Atherosclerosis
   c. Hypertension
   d. Heart attack

15. _____ is a confirmatory test for diabetes.
   a. Urine sugar
   b. Fasting blood sugar
   c. Random blood glucose
   d. GTT

16. Women who deliver baby greater than _____ kg are prone to get diabetes.
   a. 3
   b. 4
   c. 5
   d. 2.5

17. The caloric value of the diet for a person with diabetes should be ------
   a. Increased above normal requirements to meet the increased metabolic demand.
   b. Decreased below normal requirements to prevent glucose formation
   c. Sufficient to maintain the person's appropriate weight
   d. Contributed mainly by fat to spare the carbohydrate for energy needs

18. The most effect strategy to lower blood pressure is ----------
   a. Lose weight
   b. Restrict salt
   c. Monitor glucose
   d. Supplement protein
