ACTIVITY 2

Draw a food label with all specifications for a pickle you have prepared

DO YOU KNOW?

Government had made it mandatory with effect from July 1999 that all packed food items should necessarily display "Best before date".

It has been made mandatory that every container of milk substitute or infant food should have an important notice. "Mother's milk is best for babies" in capitals.

2.4.2 Advertisements

Advertisement is a source of information to consumers.

The purpose of advertising is to inform the consumers about their product and availability of a company's services or and to hold existing customers. Advertising is communicated through various mass media, including traditional media such as newspapers, magazines, television, radio, outdoor advertising or direct mail; and new media such as search results, blogs, social media, websites or text messages.

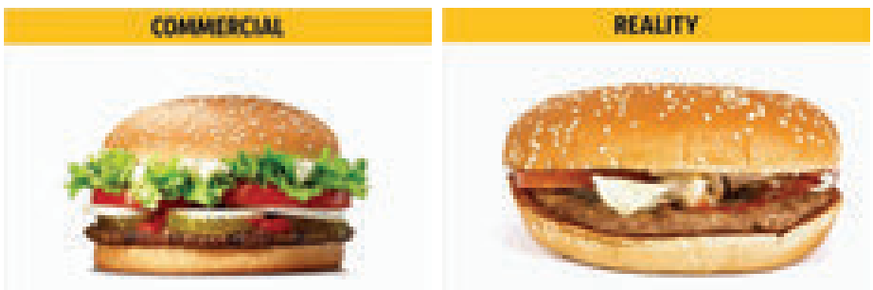

2.4.3 Internet

The internet is quickly becoming one of the primary sources for people to receive information and also to attract customers. In Internet based market the transactions are electronic, on screen interactions instead of face to face interactions. Online shoppers can seek virtually any product at any time and from any location. Internet provides consumers with an extraordinary search power, where a large number of Websites can be visited in a number of minutes, which is virtually impossible for traditional shoppers. Negative aspect associated with internet buying are the products takes time to reach consumer and sometimes products in the illustration does not match the products which consumer gets.

The web can be used as a powerful marketing tool in a number of ways to promote business and reach people across the globe. They are easy and effective. Internet business is done through E-mail networking social media marketing etc.

2.4.4 Standardization Marks

Standardization mark is a mark or symbol given to a product, which meets certain standards with respect to the quality in terms of material used, methods of manufacturing, labeling, packaging and performance. There are a number of certification marks in use for different products.
