EVALUATION

I. Choose the correct answer

Section A - Objective Type Questions **(1 mark)**

1. Pick the odd one out
   Clean, separate, cook, purchase, chill

2. Which is matched correctly
   a. Television - Equipment store
   b. Spare parts – Incidental adulteration
   c. Defective - Advertisement packaging
   d. Rava- Iron fillings

3. Cross stacking during storage helps in
   a) Water flow
   b) Air circulation
   c) Easy identification
   d) Good ventilation

4. Selection of food depends on
   a) Likes and dislikes
   b) Availability of money
   c) Nutritional requirements
   d) All of the above

5. Refrigerated storage is a type of
   a) Dry storage
   b) Low temperature storage
   c) Miscellaneous storage
   d) Trash storage

6. Biological contamination is caused by
   a) Band- Aid
   b) Pesticides
   c) Plastic
   d) Micro organisms

CCYIZA

7. Kesari dhal is commonly adulterated with
   a) Chilli powder
   b) Asafoetida
   c) Bengal gram
   d) Coffee powder

8. Botulism is caused by the ingestion of contaminated
   a) Custard
   b) Cream
   c) Egg powder
   d) Meat

9. HACCP principles are applied to
   a) Microbiological hazard
   b) Biological Hazard
   c) Pollution Hazard
   d) None of the above

10. Starch adulteration in milk products can be identified with
    a) Iron
    b) Iodine
    c) Calcium
    d) Phosphorus

11. Blanching of food enhances
    a) Freezer storage
    b) Refrigerated storage
    c) Cold storage
    d) Chill storage

12. Food borne infections can cause
    a) Cholera
    b) Typhoid
    c) Dysentery
    d) All of the above

II. Write Very Short Answers **(2 marks)**

1. What is food adulteration?
2. Define food contamination.
