The Finishing Touch 41
Quick Recap 42

4. **Describing Our App Declaratively with Docker Compose . . 45**
Getting Started with Compose 45
Launching Our App 47
Mounting a Local Volume 50
Starting and Stopping Services 51
Other Common Tasks 53
Quick Recap 56

5. **Beyond the App: Adding Redis 59**
Starting a Redis Server 60
Manually Connecting to the Redis Server 62
How Containers Can Talk to Each Other 63
Our Rails App Talking to Redis 64
Starting the Entire App with Docker Compose 67
Quick Recap 68

6. **Adding a Database: Postgres 71**
Starting a Postgres Server 71
Connecting to Postgres from a Separate Container 74
Connecting Our Rails App to Postgres 75
Using the Database in Practice 80
Decoupling Data from the Container 81
Quick Recap 85

7. **Playing Nice with JavaScript 87**
The JavaScript Front-End Options 87
Rails JavaScript Front End with Webpacker 88
Compiling Assets with Webpacker 90
A Hello World React App 92
Quick Recap 94

8. **Testing in a Dockerized Environment 95**
Setting Up RSpec 96
Our First Test 97
Setting Up Rails System Tests 99
Running Tests That Rely on JavaScript 101
Debugging 109
Quick Recap 110
