9. **Advanced Gem Management** 113
The Downside to Our Existing Approach 113
Using a Gem Cache Volume 114
Quick Recap 118

10. **Some Minor Irritations** 121
Rails tmp/pids/server.pid Not Cleaned Up 121
Compose Intermittently Aborts with Ctrl-C 124
Quick Recap 124
Closing Thoughts on Docker in Development 125

Part II — Toward Production

11. **The Production Landscape** 129
The "Ops" in DevOps 129
Container Orchestration 131
A Tale of Two Orchestrators: Swarm and Kubernetes 132
IaaS vs. CaaS 134
Provisioning Your Infrastructure 135
CaaS Platforms 137
Serverless for Containers 140
How to Decide What's Right for Me? 142
Quick Recap 143

12. **Preparing for Production** 145
Configuring a Production Environment 145
A Production Image: Precompiling Assets 147
Sharing Images 148
Quick Recap 154

13. **A Production-Like Playground** 155
Creating Machines 155
Introducing Docker Swarm 160
Our First (Single Node) Swarm 160
Describing Our App to Swarm 161
Migrating the Database 163
Deploying Our App on a Swarm 165
Tasks and Swarm's Scaling Model 167
Scaling Up the Service 168
Quick Recap 171
