directories
  copying files into images, 21
  creating, 11
  indicating current directory with . (period), 23
  listing contents, 12
  mounting volumes, 13, 21
  working directory, 21
distribution, Docker advantages, xiv, *see also* images
DNS resolution, 64
Docker, *see also* Compose; Swarm
  advantages, xiii–xv, 125
  architecture, 13
  basics, 3–16
  capabilities, xiii
  Community Edition, 3
  Docker ID, 149
  Enterprise Edition, 3
  installing, 3–6
  operating systems support, xvii
  resources on, xv, xvii
  statistics, 194
  version, 3
Docker CLI
  configuring, 158–160
  configuring for deploying to AWS, 185
  configuring for deploying to DigitalOcean, 178
  in Docker architecture, 13
  finding images to use, 201–202
  logging into Docker Hub, 152
Docker Compose, *see* Compose
Docker daemon
  build context, 35
  publishing ports, 27
  understanding, 13–15
  /var/run/docker.sock file, 180
Docker Engine
  publishing ports, 27
  understanding, 13–15
Docker for Mac, 4, 27, 199
Docker for Windows, 5, 27, 199
Docker Hub, 149–152, 201
Docker ID, 149
Docker Machine, 135, 155–160
Docker Registry, 149–154
Docker Toolbox, 5
docker-compose
  pattern, 52
  using, 51–56
docker-compose run, 63
  creating development and test databases, 78
  debugging tests, 109
  manually connecting Redis server, 63–64
  Postgres, starting client, 74
docker-compose up
  network creation, 47, 63
  Postgres, starting, 73
  using, 47–50
docker-compose.yml
  creating, 46
  mounting a local volume, 50
DOCKER_CERT_PATH, 158
DOCKER_HOST, 158
DOCKER_MACHINE_NAME, 158
DOCKER_TLS_VERIFY, 158
Dockerfile
  build cache, 36–41
  building images, 23–25
  building images with Compose, 46
  caching Gemfile, 38–41
  CMD default command, 33
  defining custom images, 18–23
  ignoring unnecessary files, 34, 37
  instructions, 18
  maintainer label, 41
  tagging images, 31–33
  understanding, 18–21
  versioning images, 32
.dockerignore file, 35, 37
Domain Name System, *see* DNS
down, 55
driven_by, 100
drivers
  Capybara, 102, 104
  Docker Machine, 136
  JavaScript tests, 102–109
  logging, 103
  RackTest, 100, 102
  system tests, 100
Droplets, 173
DRY principle, 195

E

-e option, 8, 123
echo example of one-off commands, 55
ECS, *see* Elastic Container Service
Edge form of Community Edition, 3
