# Contents

**Acknowledgements** . . . . . **xi**
**Introduction** . . . . . **xiii**

**Part I — Development**

1. **A Brave New World** . . . . . 3
Installing Docker 3
Verifying Your Install 5
Before We Begin 6
Running a Ruby Script Without Ruby Installed 7
Generating a New Rails App Without Ruby Installed 10
Quick Recap 15

2. **Running a Rails App in a Container** . . . . . **17**
How Do We Run Our Rails App? 17
Defining Our First Custom Image 18
Building Our Image 23
Running a Rails Server with Our Image 25
Reaching the App: Publishing Ports 26
Binding the Rails Server to IP Addresses 28
Quick Recap 29

3. **Fine-Tuning Our Rails Image** . . . . . **31**
Naming and Versioning Our Image 31
A Default Command 33
Ignoring Unnecessary Files 34
The Image Build Cache 36
Caching Issue 1: Updating Packages 37
Caching Issue 2: Unnecessary Gem Installs 38
