Open that URL on your Android device. I pasted mine into an email and signed into the Gmail app on my Android device.

Click Accept Invite at the bottom of the screen, and then click the Google Play download link to install the app on your device.

Once the app is installed, click Open. Congratulations! Your app is now running on your Android device.

You may have noticed that, unlike on iOS, we didn't have to set an app icon for Android. But if you're so inclined, feel free to add one by following this Android Developer codelab.[72]
