

This file has two nodes: the outer `ConstraintLayout` wraps an inner `TextView`. See the “Hello World!” string? That’s where that text came from when you first launched the app.

We want to render a `FragmentContainerView`. This manages the stack of screens when you tap on links. Replace the entire file with the following:

ch01_13/android/app/src/main/res/layout/activity_main.xml

```
<?xml version="1.0" encoding="utf-8"?>
<androidx.fragment.app.FragmentContainerView
    xmlns:android="http://schemas.android.com/apk/res/android"
    xmlns:app="http://schemas.android.com/apk/res-auto"
```
