47. In a marketing survey the prices of tea and prices of coffee in a town based on quality was found as shown below. Find the rank correlation between prices of tea and prices of coffee.

Price of tea	88	90	95	70	60	75	50
Price of coffee	120	134	150	115	110	140	100

48. Calculate the Spearman's rank correlation coefficient between price and supply from the following data.

Price	4	6	8	10	12	14	16	18
Supply	10	15	20	25	30	35	40	45

49. A random sample of 5 college students is selected and their marks in Tamil and English are found to be:

Tamil	85	60	73	40	90
English	93	75	65	50	80

Calculate Spearman's rank correlation coefficient.

50. Calculate Spearman's coefficient of rank correlation for the following data.

x	53	98	95	81	75	71	59	55
y	47	25	32	37	30	40	39	45

51. Calculate the coefficient of correlation for the following data using ranks.

Mark in Tamil	29	24	25	27	30	31
Mark in English	29	19	30	33	37	36

52. From the following data calculate the rank correlation coefficient.

x	49	34	41	10	17	17	66	25	17	58
y	14	14	25	7	16	5	21	10	7	20

Yule's coefficient

53. Can vaccination be regarded as a preventive measure of Hepatitis B from the data given below. Of 1500 person in a locality, 400 were attacked by Hepatitis B. 750 has been vaccinated. Among them only 75 were attacked.
