(iv) Coordination and Publications Division

This Division, located at New Delhi, is responsible for

- coordinating all the activities of different Divisions of NSSO
- publishing the bi-annual journal of NSSO, titled "Sarvekshana"
- organizing National Seminars on the results of various socio-economic surveys undertaken by NSSO.

8.2.3 Present Statistical System in India

In addition to the role played by CSO and NSSO, most of the Central Ministries collect statistical information on the subjects related to the respective ministries. The statistical information are collected as by-products of administration of the ministries or for monitoring the progress of specific programmes implemented by the respective ministries. Some Ministries in Government of India, like Agriculture, Water Resources, Health, Finance, Commerce, Labour, and Industrial Development have separate statistical divisions, while most others have nucleus cells.

The Statistical System in the States is similar to the system at the Central Government. A Directorate of Economics and Statistics, functioning in each State under a decentralized system, is a nodal agency, which is responsible for the coordination of statistical activities in the State. The Directorates have statistical offices at the headquarters in each district. The district level offices collect statistical information related to all sections of economy of the respective district. The Directorates compile and publish such information as Statistical Hand Books every year. The Hand Books contain several information including estimates of area, production and yield of principal crops. In Tamil Nadu, the Directorate is functioning with the nomenclature "**Department of Economics and Statistics**". This department, with headquarters at Chennai, is headed by a Commissioner, who is assisted by a Director, 3 Additional Directors and 2 Joint Directors, in addition to Assistant Directors and supportive officials.

Generally, flow of statistical information in Indian Statistical System is upwards from village → block → district → State Government Departments → corresponding Ministries at the Centre.

In addition to CSO, NSSO and the Ministries, there are other public and private organizations in India, which also deal with collection of Official Statistics on various characteristics. Reserve Bank of India is one such organization, which collects, compiles and publishes, every year, the statistical information related to economy of the country as the "**Hand Book of Indian Economy**".
