Part II — Building an App With RSpec 3

4. **Starting On the Outside: Acceptance Specs** 45
   - First Steps 45
   - Deciding What to Test First 49
   - Checking the Response 52
   - Filling In the Response Body 53
   - Querying the Data 54
   - Saving Your Progress: Pending Specs 57
   - Your Turn 58

5. **Testing in Isolation: Unit Specs** 61
   - From Acceptance Specs to Unit Specs 62
   - Filling In the First Spec 65
   - Handling Success 69
   - Refactoring 72
   - Handling Failure 73
   - Defining the Ledger 75
   - Your Turn 77

6. **Getting Real: Integration Specs** 81
   - Hooking Up the Database 82
   - Testing Ledger Behavior 84
   - Testing the Invalid Case 89
   - Isolating Your Specs Using Database Transactions 92
   - Filling In the Behavior 94
   - Querying Expenses 95
   - Ensuring the Application Works for Real 98
   - Your Turn 101

Part III — RSpec Core

7. **Structuring Code Examples** 107
   - Getting the Words Right 107
   - Sharing Common Logic 112
   - Sharing Example Groups 122
   - Your Turn 128

8. **Slicing and Dicing Specs with Metadata** 131
   - Defining Metadata 131
