no stockings, exhorted her followers to the raid in which 260 of them were injured and which brought about her own arrest.

Jawaharlal Nehru was also arrested at the protest as were some 60,000 other Indians found guilty of various disobediences in the aftermath of the clash. Aside from gaining international support for their plight, India won only a little political sway from the non-cooperation movement. Gandhi was personally allowed to meet with the Viceroy of India, Lord Irwin, after being released from prison in January of 1931 and afterward was given a place at a London conference concerning Indian administration. He was unable to achieve anything further for his country at that conference, and in disappointment, his Indian National Congress colleagues began searching for other methods by which to achieve independence. Nehru and Gandhi drifted apart.

While Mohandas took up the plight of the untouchables of India, Nehru remained with the Congress and continued pushing for self-rule. Finally, in 1947, they achieved their goal. At midnight on August 15th, the Indian Independence Act came into effect, splitting British India into the Dominions of India and Pakistan. A few years later, these were reasserted as the Republic of India and the Islamic Republic of Pakistan. The Indian National Congress was put in power of the new republic with Jawaharlal Nehru at the head of government as India’s first prime minister. India was finally independent.
