- To limit the rise in rural wages, given that it has to rise relative to other wages to attract labour into agriculture, wages elsewhere should not rise as much.
- Monetary policy is an appropriate tool with which to limit the rise in wages, especially urban ones.
- The slowdown in rural wage growth may be partly the consequence of tighter policy limiting wage rise elsewhere.
- Of course, monetary policy's effectiveness in containing other price and wage increases (such as services prices, which are an important part of the CPI index) is far less controversial.

The RBI believes its fight against inflation will have traction, despite food being an important component of the CPI.
