They even made a fool-proof plan but Mīrzā chose not to listen to any of it. When nothing seemed working, they killed him in the plough meadows.

He died, but by carrying a bad name for himself just because he went ahead to fulfil the promise made by his mother. Babur declared that such doing by any person should never be heard or discussed. Ironically, he ended up talking about its particulars in the *Baburnama* which informed us about what exactly had transpired.

Now that news of Ali's death had reached Shaybāni's ears he thought he could play an even smarter game. He sent Jan Ali to take his place. Jan immediately dismissed Khwaja Yahya and his sons, Muhammad Zakariya and Khwaja Baqi, ordering them to confine themselves somewhere towards Khurasan.

A few Aūzbegs followed them, and near Kardzan they killed Khwaja along with his sons.

Though Shaybāni Khān had made his stand clear, Babur found it hypocritical. According to Babur, he had outrightly denied any role in this killing and had passed on all blame to Qambar Bi and Kupuk Bi. Babur has asserted, 'His excuse is worse than his fault, for if begs, out of their heads, start such deeds, unknown to their Khāns or Padishahs, what becomes of the authority of Khānship and sovereignty?'

Babur Departs from Kesh

Now that Aūzbegs had possessed Samarkand, Babur left Kesh and began to move in the direction of Ḥisār. During this move, he was joined by Muhammad Mazid Tarkhān, the Samarkand begs along with their families and people. But Mazid Tarkhān, Samarkand begs and their people took off to Khusrau Shah, becoming his retainer when Babur's party dismounted in the Chultu meadow of Chaghanian.

Babur was seeing the pain of being away from his own country and town. While traversing the district of Khusrau Shah, his mind was sunk in thinking about where to go and where to stay. Of course, Khusrau had inflicted the worst of miseries on Babur's house. Babur was keen to see his younger 'Khān Dada', Alacha Khān (Babur addressed his maternal uncles as 'dada') while passing through Qara Tigin and Alai but somehow this never materialized.
