

Figure I: Family Tree of Tumanay Khan

But the question that may arise is, why should we bring in the name of the clan while we are just chronicling their history? The answer lies in the fact that even this name distortion occurred only because there was something to hide. Humbly speaking, the wrong name was used to create a narrative. Or else why suddenly in the nineteenth century, Indologists would begin calling Tīmūrid Gūrkāniyān Mūghals almost after three centuries of their establishment in what they called Hindustan? Abul-Fazl in the *Ain-i-Akbari* does mention them being the empire of 'Hindustan'.[26]

So, coming back to the name, Timur never liked to see himself as *Moghūl* even though both him and Genghis Khān had a common ancestor Tumanay
