non-availability of material or bureaucratic obstruction. Thanks Rajiv, for all your help. This book could not have been written without you.

Rajiv was also instrumental in introducing me to another senior central banker whose assistance was crucial. S.V.S. Dixit, Adviser and head of the history cell at the RBI, smoothed access to archival material from the RBI Archives, Pune, where the Sir James Taylor Papers, recently put in the public domain by the RBI, are available. I am grateful to Ashok Kapoor, former Chief Archivist, RBI Archives, for his assistance and I owe a similar debt of gratitude to his successor Dr R.L. Sahoo, who not only supplied me with copies of documents promptly, but also sent me photographs for use in the book. I am also grateful to Sunil Kumar of the RBI for his help in providing me with books and material.

D.S. Rawat, senior Research Assistant at the Nehru Memorial and Museum Library, who assisted me in accessing the Sir Purshotamdas Thakurdas Papers and the C.D. Deshmukh Papers, also deserves my gratitude. Likewise, Freny Shroff and R. Narla at the Tata Central Archives, Pune, were also of much help in providing access to A.D. Shroff's personal papers. I also owe much to R. Anand, formerly of HDFC, who greatly facilitated my research on H.T. Parekh by providing me with a large number of books and clippings from the HDFC Library. His colleague Mahesh Shah, continued where he left off, and provided me with books and more material. My thanks are also due to Satish Mukte and the Central Bank of India for permitting me to use photographs of its founder Sir Sorabji Pochkhanawala in the book. I would also like to thank Amar Singh of the Cotton Association of India who kindly supplied photographs of Sir Purshotamdas Thakurdas.

Inevitably, in a venture such as this, one is indebted to those who have gone before. Many books and articles were used in the writing of this book but I owe an especially heavy debt to some among whose pages I have pillaged, précised, and paraphrased shamelessly. It is only appropriate that I acknowledge these with a special mention. The book owes much to the *History of the Reserve Bank of India, 1935–1951; The Reserve Bank of India, 1951–1967 by* G. Balachandran; *The Evolution of the State Bank of India, 1921–1955: The Era of the Imperial Bank;* and *The Evolution of the State Bank of India: The Era from 1955 to 1980* by Abhik Ray. I am also highly beholden to N. J. Nanporia's *Pochkhanawala the Banker;* Frank
