47 There is some ambiguity about Talwar applying for leave or otherwise. In his recollections Talwar makes no mention about not applying for leave and only says that a relieved government gave him the benefit of special leave till the end of his tenure. However, Vaghul who was with him when he had the conversation with Palkhivala is certain that he heard Talwar tell him that he had not applied for leave. Vaghul himself notes that this aspect puzzled him since he vividly recalled Talwar's discussion with Palkhivala on this subject.
