grudge' against anyone. This is why Bhagat Singh and B.K. Dutt appeared before the trial judges afterwards and explained how they had deliberately thrown the two bombs at the unoccupied rows where no assembly members were seated. In the words of Bhagat Singh, 'The two bombs exploded in vacant spaces within the wooden barriers of the desks and benches.'[1] This was to scrupulously avoid people being injured. Had they chosen to, they could have used lethal and highly destructive devices to obliterate the chamber. They chose not to do so.

On 6 June 1929, Bhagat Singh and B.K. Dutt presented a statement before the sessions court.[2] It was a truly significant moment because although Bhagat Singh went through two further trials after this, in no other trial did he get to put out a statement for public consumption in this way. No other statement encapsulates his thoughts on revolution or, indeed, on anarchism. None other defines what he means by revolution. Nor does anything else set out his objectives in the same way. The day of the statement was the most important day of the trial. There were in fact two statements. The second statement was made on 12 June 1929 in the appeal against conviction and sentence of transportation for life, and this was made before the high court in the same case. The two statements are the only court-room statements made by Bhagat Singh, and of these the first one of 6 June is by far the more important. In this statement, Bhagat Singh made it clear, through his lawyer Asaf Ali, that Governor-General Lord Irwin was quite wrong to describe the Delhi Legislative Assembly bomb as 'an attack directed against no individual but an institution itself'. On the contrary, the purpose of the assembly bomb was 'to emphasise the historical lesson' of the changes sweeping the world over that the imperial government neglected at its peril. This is why, '[w]e wanted to emphasise that *lettres de cachet* and Bastilles could not crush the revolutionary movement in France', and why the, '[g]allows and Siberian mines could not extinguish the Russian Revolution'. Even within Great Britain, 'Bloody Sunday and Black and Tans failed to strangle the movement of Irish freedom'. Therefore, when the government now sets out to curb the unrest that was brewing before its very nose, he asks rhetorically, '[c]an Ordinances and
