And yet, Bhagat Singh's anomaly did not rest there. His father, Sardar Kishan Singh, and his mother, Mata Vidyavati were both staunch 'Arya Samajhis' (which in Sanskrit means 'Society of Nobles'). The Arya Samaj was founded in 1875 by Swami Dayananda Saraswati. It was dedicated to reforming modern Hinduism by consecrating the Vedas, eliminating caste and idolatry and emphasizing the scriptures of the Hindus. The movement believed that scripture alone was demonstrative of a revealed truth. The family had a strong political streak, and in this sense Bhagat Singh's destiny appears to have been written earlier than he could himself have willed.

Opinions may differ as to whether the timing of his birth was auspicious. His father and two of his uncles, Ajit Singh and Swaran Singh, having just been released by the British for anti-government activities for their audacious protests against the Punjab Land Colonisation Bill 1906, were comfortably arriving home from jail as he was just arriving into this febrile world from his mother's womb. The 1906 bill was pernicious. A farmer dying without an heir would see his land being sold off by the government to wealthy and powerful land developers or zamindars. Oddly, this group had an unwavering allegiance to the British. Less than a half score years earlier, the Punjab Land Alienation Act 1900 had already succeeded in causing immense resentment amongst the elite urban classes. Bhagat Singh's family would now take up the cudgels against the British Government on behalf of the dispossessed farmers. This is how the Colonisation Bill would become the catalyst for the beginning of the freedom movement in Punjab. Bhagat Singh would ride on that wave because throughout his life he held an unalloyed adoration for the sacrifices of his uncles.

Bhagat Singh's father was Kishan Singh, the eldest amongst three siblings. His paternal uncles were Ajit Singh, who was next in line, followed by Swaran Singh, the youngest of the three brothers. They belonged to a middle-class family of Sandhu Jats and were relatively well-off. Nevertheless, they were heirs to the radical politics of Bal Gangadhar Tilak, Bipin Chandra Pal and Lala Lajpat Rai (the trio known as 'Lal-Bal-Pal') which preceded the Gandhian politics of non-violent passive
