2. DRAWING SHAPES

CorelDRAW has different shape tools that you use to create ellipse(including circles), rectangle (including squares), polygons, stars and some basic shapes.

Drawing rectangles and squares

Drawing a Rectangle

1. To draw a rectangle, select the Rectangle tool in the toolbox. The mouse pointer changed to a crosshair with a small rectangle beneath it.
2. Click and drag anywhere in the drawing area. As you drag, a rectangle appears.
3. Release the mouse button when the rectangle is of the desired size.
4. Now a rectangle will appear on the screen.
