

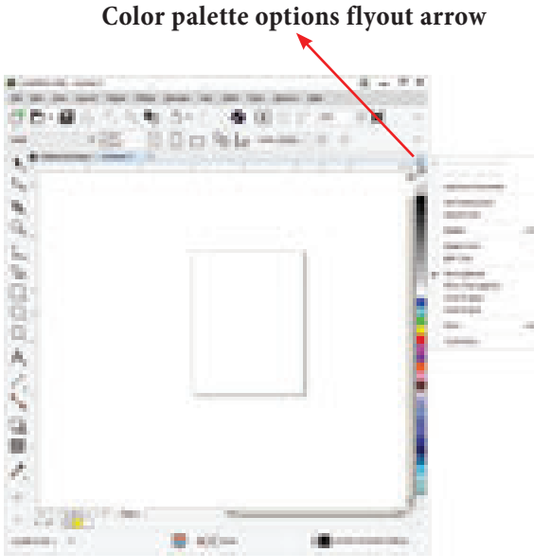

Fig. 3.36 Changing Palette Options

Selecting Fill and Outline Colours

To fill colour to any object :

1. Select the object using the Pick tool.
2. Click on any colour on the Color palette.
3. The selected colour will be applied to the object.
4. Right click on any colour on the Color palette.
5. The outline colour of the selected object will change to the selected colour.

4. Resizing shapes of objects

Resizing shape means changing the size of the shape by making it larger or smaller than the original one. You can resize shape objects by dragging the handles. When you drag a handle in towards the centre of the object, you make it smaller. When you drag out, away from the centre, you make the object larger.

1. Select the object to be resized. The handles appear around the object. Place your mouse pointer over the handle.
2. Click and drag the handle to resize the shape of the object.

   If you drag a corner handle, you maintain the proportion between height and width as you resize your object. But if you drag from a side or top handle, you will change not only the size but also the shape of the object.
