2. Position the cursor where you want the text to appear in your drawing and click. A vertical bar, called the "insertion point" appears.
3. Type the text.
4. When finished, click the Pick tool. When you click on the Pick tool, your new text will be surrounded with eight small square black handles.

Adding Paragraph text

Paragraph text is designed for adding lengthy blocks of text to ads, brochures and other types of text-intensive applications. Compared with Artistic text, Paragraph text offers more formatting options. For example, you can flow Paragraph text into columns, create bullet lists and set tabs and indents.

To add Paragraph text, you must first create a frame to contain it. Once text is placed in the frame, you can move the entire block by dragging the outline of the frame or any of the text inside it with the Pick tool.

Dragging the Paragraph text frame's solid handles resizes the frame, but not the text inside it. To add the Paragraph text

1. Click the Text tool. The mouse pointer changes to a crosshair with a small 'A' beneath it.
2. Drag the mouse-cursor on the page diagonally to draw a text box (when you release the left button of the mouse, a text box appears on the screen with the keyboard-cursor blinking in it).
3. Then type the text in the text box. When finished, click the Pick tool.
