5.8.3 Rectangle Tool

This tool is used for drawing rectangles and squares.

To use the Rectangle Tool, follow these steps.

1. Click the Rectangle Tool(R) on the Tools panel.
2. From the Property Inspector panel, select the required settings for the rectangle.
3. Bring the mouse pointer onto the stage. Keeping the mouse button pressed, drag the mouse to draw the rectangle.
4. Release the mouse button when you get the rectangle of the desired size.

You can also draw a square using the Rectangle Tool by just pressing and holding the Shift key while dragging the mouse.
