6.4 AUTOCAD 2016 INTERFACE

The AutoCAD 2016 interface is based on Ribbons and the Application Menu. The important feature of this interface is that the size of the Graphical Area will be bigger.

6.4.1 Application Menu

The Application menu appears when you click the red "A" called the Application Button. This menu contains file-related commands such as creating a new file, opening an existing file, saving the current file, saving the current file under a new name and in a different folder, exporting the current file to a different file format, printing and publishing the current file, etc.
