The File tab bar is located at the bottom of the Ribbon. In the bar, all the tabs added get arranged in the sequence in which the respective drawings are created. Using mouse you can change the sequence of tabs in the File tab bar. To do so, press and hold the left mouse button on any tab and drag it to the desired location on the tab bar.

All File tabs are gray in colour. The current file (tab) will appear in a lighter gray, and the other tabs will appear in a darker gray.

If you hover over one of the file tabs, two things will take place:

- The path of this file will appear above the File tab.
- The model space and the layouts of this file will appear beneath the tab.

A star beside the name of the file in the file tab means this file has changed and you need to save changes.

- You can also close the File tab by clicking on the (x) sign beside the name.
- The user can customize the File tabs by switching them off. To do so, press the View tab in the ribbon and locate the Interface panel. Click on the Files tab button to close the File tab bar.

6.4.7 Drawing Area

The drawing area covers the major portion of the screen. You can easily draw objects and create 3D graphics in this area.
