2. If any of the open files are modified, AutoCAD will ask if you want to save or close without saving, as in the following dialog box. Choose Yes to save your work.

3. AutoCAD displays the Save Drawing As dialog box — if this is a new drawing that has not be saved previously. AutoCAD saves your work, and then exits to the Windows desktop.

To discard the drawing and exit AutoCAD:

1. Click the X button.
2. Notice that AutoCAD displays a dialog box to confirm whether you want to save the drawing — it's your last chance! Move the cursor to choose the No button to exit without saving your work. AutoCAD does not record your work to disk, and exits to the Windows desktop.

Autodesk, Inc. is an American multinational software corporation. It makes software services for the architecture, engineering, construction, manufacturing, media, and entertainment industries. Autodesk is headquartered in San Rafael, California.

In AutoCAD, a panel is a grouping of buttons for similar commands.

A pull-down menu is a vertical list of commands that appears when a button or menu item is selected. This pull-down menu is called the Menu Browser.
