1.20.4 Creating Master Pages

By default, all PageMaker documents have a Master Page already created '**Document Master**'. But sometimes you will require more than one Master Page.

You can set up multiple Master Pages for any publication, each page containing a specific combination of headers, footers, page numbers, frames, and other elements that you want to use over and over.

When you create a new Master Page, you will be asked to name the new Master page and set its margins and column guides.

To create a new Master Page

1. Click the **New Master Page icon** in the Master Pages palette. The **New Master Page dialog** box appears.
2. Enter the name of the new Master Page in the **Name** field.
3. Make the appropriate changes in the **Margins** and **Column Guides** fields.
4. Click on OK button. A new Master Page appears in the Master Pages palette.
