Construction of Simple Bar Diagram

Solution:

We represent the above data by simple bar diagram in the following manner:

Step-1: Time (Years) is marked along the X-axis and labelled as 'Year'.

Step-2: Production Cost is marked along the Y-axis and labelled as 'Production Cost' (in lakh of rupees).

Step-3: Vertical rectangular bars are erected for each year marked on x-axis and the height of each bar is proportional to the value of the respective production cost.

Step-4: Simple Vertical bars are filled with the same colours.

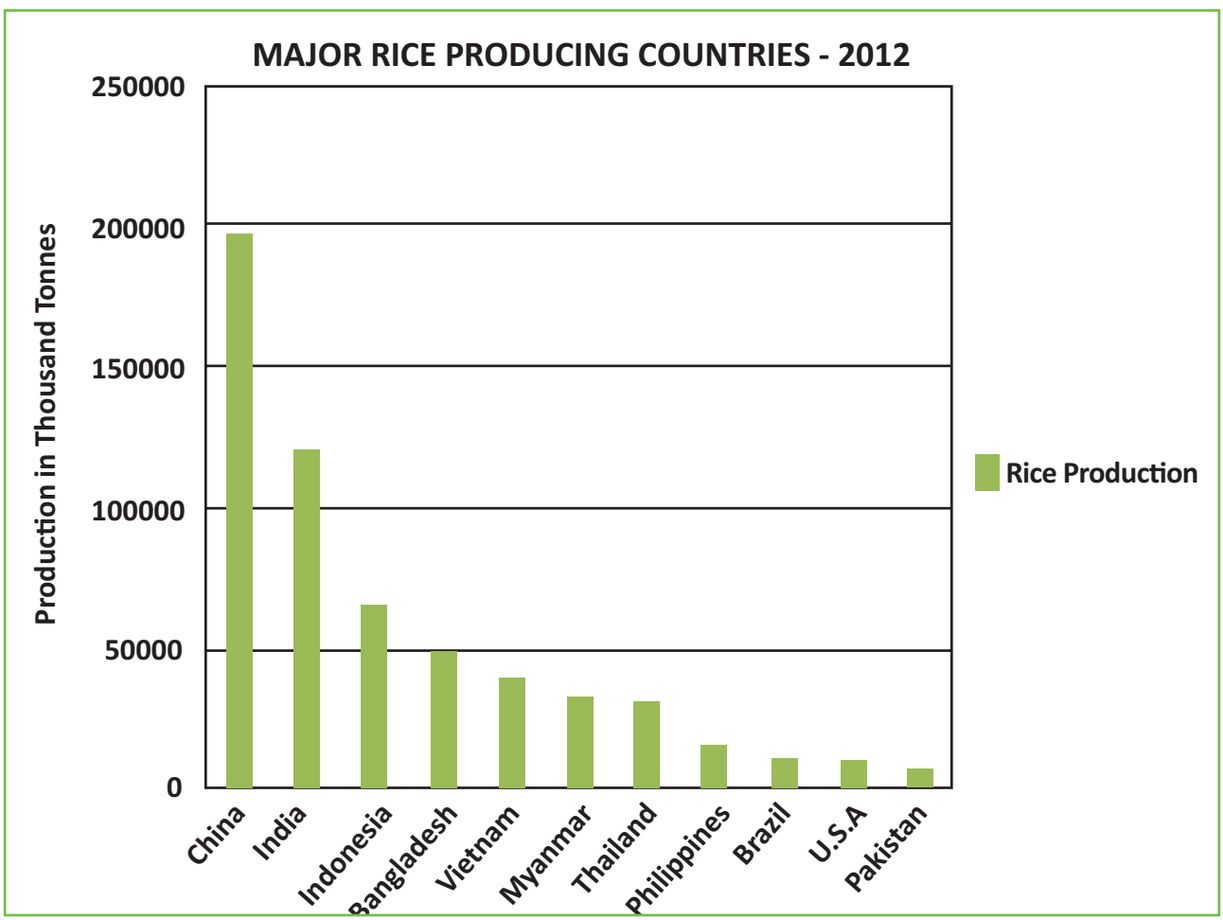

Example 12.3

Construct a simple bar diagram to represent the data given in Table 12.3.
