new_with_session() method 65

O

oauth_callback parameter 59, 62
OmniAuth
about 54, 55
URL 54
Omniauthable module 8, 54, 56
omniauth.auth key 62
OmniAuth configuration
authentication, Facebook used 70, 71
authentication, Twitter used 60-67
OmniAuth support 8

P

password
resetting 26
password_required? method 65
password reset page
screenshot 26
persisted? method 64
POST requests 7
process_omniauth() method 63, 64, 82, 84
provider field 65

R

Rails application
creating 9-12
files, generating by Devise 10
information, generating 10
running, Devise used 12-14
Rails application, files
devise.en.yml 10
devise.rb 10
rails command 21
rails generate controller command 81
rails generate model command 81
rake db
migrate command 16, 26
Recoverable module 8, 26
Registerable module 8, 21
Rememberable module 8
remote authentication
about 53, 54
application, preparing 55, 56
Facebook, using 67-71
implementing, in application 55-71
Twitter, using 56-67
Remote authentication test
about 74
applying 80-85
Factory Girl used 80
RSpec used 80
RSpec
about 80
URL 74
RSpec framework 50
RSpec installation result
screenshot 81
RSpec matcher 50
Ruby on Rails
about 7
URL 73
rules
defining, SQL used 46-48

S

scaffold 42
session variable 14
sign_in helper 78, 79
sign_in() method 79
sign-in page
screenshot 17
sign-in test
applying 78, 79
sign-up page
screenshot 19
sign-up test
applying 74
result, screenshot 75
SQL
used, for rules defining 46-48

T

Test::Unit framework 50
Timeoutable module 8
Token Authenticatable module 8
Trackable module 8
Twitter
used, for OmniAuth configuring 60-67
used, for remote authentication 56-67
