- ❖ Emotions are agitated states of our mind and body leading us to perform some or other types of behavioural acts. Emotions are categorized as positive emotions and negative emotions. The components of emotions are knowing, feeling and doing.
- ❖ Emotions are capable of exercising a leading role in the health and happiness of the individual. An emotionally adjusted person is found to possess a good health, free from illness or diseases.
- ❖ Personality is the totality of emotional and behavioural characteristics that are peculiar to a specific person and that remain somewhat stable and predictable over time.
- ❖ Frustration refers to failure to satisfy a basic need because of either condition in the individual or external obstacles.
- ❖ Conflict is a state of tension brought by the presence in the individual of two or more opposing desires. The conflict arises from the home environment, school environment, occupational environment and social and cultural environment.
- ❖ Stressful situations are a part of everyday's life. Any stressful situation can precipitate a crisis.
- ❖ Crises result in a disequilibrium from which many individuals require assistance to recover.
- ❖ Individuals experiencing crises have an urgent need for assistance. In crisis intervention the therapist, or other intervener becomes a part of the individual's life situation.
- ❖ The goal of crisis intervention is the resolution of immediate crisis and restoration of the individual to his pre-crisis level of functioning
