Introduction

"A person is a person no matter how small" said by Dr. Seuss. Children, though small, they are unique individual and are our most valuable resources. They are the gift to the society and a nation's wealth depends on the health of its children. They need healthy atmosphere for their all round development and also need special care since they are world's most valuable resource and among the most vulnerable in the society. Knowledge about the needs and problems of the children will help us to provide healthy atmosphere there by to create a better world for them.

8.1 Definition of Newborn

A newborn is otherwise known as a "neonate" is a child under 28 days of age.
