- Immunization
- Early detection and management of defects at birth, deficiencies, diseases and disability in children (0–18 years)

Janani SurakshaYojana (JSY)

It is a safe motherhood intervention under the National Rural Health Mission (NRHM). It was launched in 12th April 2005. The objective of JSY is reducing maternal and neo-natal mortality by promoting institutional delivery among the poor pregnant women. A monetary benefit is given to the mother under this programme for institutional delivery.

Janani Shishu Suraksha Karyakaram (JSSK)

Government of India has launched Janani Shishu Suraksha Karyakaram (JSSK) on 1st June, 2011. This programme aimed to motivate the mother for institutional delivery.

The following are the free entitlements for pregnant women:

- Free delivery
- Free Caesarean Section
- Free drugs and consumables
- Free diagnostics
- Free diet in the hospital
- Free provision of blood
- Exemption from user charges
- Free transport from home to hospital
- Free transport during referral services
- Free drop back from hospital to home

The following are the free services for sick newborns till 30 days after birth.This has now been expanded to cover sick infants:

- Free treatment
- Free drugs and consumables
- Free diagnostics
- Free provision of blood
- Exemption from user charges
- Free Transport from Home to hospital
- Free transport during referral services
- Free drop back from hospital to home

Rashtriya Bal Swasthya Karyakram (RBSK)

It is a new initiative launched in February 2013. It includes provision for child health screening and early intervention services through early detection and management of 4 Ds, prevalent in children. These are

- Defects at Birth
- Deficiencies
- Diseases of Childhood
- Developmental delays and disabilities

Integrated Management of Neonatal and Childhood Illnesses (IMNCI)

It is one of the main interventions under the Reproductive and Child Health programme as well as under NRHM. It has two components.

Care of Newborns and Young Infants (infants under 2 months)

It includes

- Keeping the child warm
- Initiation of breastfeeding immediately after birth
- Counseling for exclusive breastfeeding and non-use of pre lacteal feeds
- Cord, skin and eye care.
- Recognition of illness in newborn and management and/or referral
- Immunization
- Home visits in the postnatal period.

Home visits are an essential part of this intervention. Home visits done by health workers help mothers and families to understand and provide essential newborn care at home and detect and manage newborns with special needs due to low birth weight or sickness.
