Non-Verbal Learning Disabilities

It is defined as trouble in interpreting nonverbal cues like facial expression and body language.

Management: rehearse getting from place to place. Orally point out the difference, connection on resemblance.

Assessment

Many normed assessments can be used in evaluating skills in the primary academic domains: it includes;

- Word recognition,fluency, and comprehension;
- Mathematics, including computation and problem solving;
- Written expression, including handwriting, spelling and composition.

The purpose of assessment is

- to determine what is needed for intervention,
- which also requires consideration of contextual variables and
- whether there are comorbid disorders that must also be identified and treated,
- such as behavioral issues or language

The World's Most Famous Genius, The Nobel Prize Winner Is Believed To Have Learning Disability. Do You Know Who Is He? Yes…… He Is Albert Einstein.

10.10 Attention Deficit Hyperactivity Disorder

Attention Deficit Hyperactivity Disorder is otherwise known as Hyperkinetic disorder.

The syndrome was first described by Heinrich Hoff in 1854.

Definition

Attention Deficit and Hyperactivity Disorder is a Neuro behavioral developmental disorder characterized by inattentiveness, over activity, easily distractable and impulsiveness. The child responds to multiple stimuli at same time.

Epidemiology

ADHD is most commonly studied and diagnosed in, primary school children 1.7%, school aged children 3 %– 5%.

The ratio of boys and girls ranges from 2: 1.

Risk Factors for ADHD

- Drug exposure of baby during pregnancy
- Birth complications
- Low birth weight
- Lead poisoning

Causes for ADHD:

Biological causes:

- Genetic: biological parents of ADHD.
- Bio chemical: alterations in dopamine and nor – epinephrine.
- Anatomical causes: Alteration in the regions of frontal lobes, basal ganglia, and cerebellum in brain

Psychosocial Causes

- Family dysfunction
- Stressful events
- Emotional deprivation
- Paternal criminality
- Low socio economic status and poverty

Perinatal Causes

- Alcohol and tobacco smoke exposure during pregnancy.
- Head injuries.
- Infections during pregnancy, at birth and early childhood.
- Prolonged labour
- Perinatal asphyxia
- Postnatal infections, CNS abnormalities due to trauma
