Transference: It is an unconscious response in which the patient experiences feelings towards nurse. The nurse viewed as a person from past life, loved object and expecting privileges.

Counter Transference: It is created by the nurse's specific emotional response to the qualities of the patient and providing privileges.

Boundary Violation: The nurse goes beyond the boundaries and establishes a social, personal, and economic relationship.

Intervention to overcome Therapeutic Impasses

- Nurse must have the knowledge of the impasses
- Nurse must reflect on feelings
- Nurse must examine their strength and weaknesses
- Maintain open communication

10.12 Mental Health Services

The attitude towards mental illness and the treatment of mentally ill have undergone considerable changes through the years. Mentally ill were often beaten, starved, burned and tortured in order to make the body unsuitable place for demons. Gradually man began the quest for scientific knowledge and truth.

The methods of treating mental illness have changed dramatically in the past century. The organization of mental health services demands a wide variety of interventions, regarding from public awareness, early identification, treatment for illness, family education, long term care, rehabilitation, and ensure human rights of the ill persons. Mental health services are delivered through mental hospitals at central, state and district levels.

Community

Community is a group of people with common value, belief, attitude, characteristics, location and interest.

Importance of Community Mental Health

- It will promote mental health of families
- It will help the family members to know the social, cultural and situational aspect of care
- It will educate the family members regarding identification of stressor and coping mechanisms to deal problems.
- To remove stigma from community people
- To remove the misconception about mental illness

Mental Health Services available in the Community

Partial Hospitalization

Partial hospitalization is an innovative alternative to hospitalizations. Individuals can attend structured programmes throughout the day and return to home in the evenings. The advantage or partial hospitalization is of lesser separation from families.

Group Homes

These homes may belong to a hospital or rented by 15 to 20 mentally ill recovering patients.

Foster Homes

It is a home in which a patient recovering from a mental disorder is placed in a voluntary family by a social agency for family care is paid by the agency. Patient gets home like environment.

Sheltered Workshop

It is a work oriented rehabilitation facilities with a controlled working environment to fulfill individuals vocational goals.

Quarter Way Homes

This is the place usually located within the hospital campus itself, but not having
