to delay in bureaucratic processes. The government rather will work with you as a facilitator to quicken the process so that safe and effective vaccines can get to the people in the shortest amount of time possible.'

As the prime minister's visit concluded, the PMO sent out an official release highlighting his experience,

> The scientists expressed joy that the Prime Minister met them face to face in order to boost their morale and help accelerate their efforts at this critical juncture in the vaccine development journey. He expressed pride in the fact that India's indigenous vaccine development has progressed at such a rapid pace so far. He spoke on how India is following sound principles of science in the entire journey of vaccine development, while also asking for suggestions to make the vaccine distribution process better. The Prime Minister stressed that India considers vaccines as not only vital to good health but also as a global good, and it is India's duty to assist other countries, including the nations in our neighbourhood, in the collective fight against the virus.[10]
