Start work on developing and vaccinating children on priority.'[36] Singapore's Health Ministry responded sharply calling him out for spreading misinformation, 'There is no truth whatsoever in the assertions found within the reports. There is no Singapore variant. The strain that is prevalent in many of the COVID-19 cases in recent weeks is the B.1.617.2 variant, which originated in India. Phylogenetic testing has shown this B.1.617.2 variant to be associated with several clusters in Singapore.'[37] Singapore's Foreign Minister also responded by saying, 'Politicians should stick to facts! There is no "Singapore variant".'[8] India's External Affairs Minister, S. Jaishankar had to intervene to sort out this diplomatic embarrassment and clearly convey that the Delhi chief minister does not speak for India. He tweeted, 'Singapore and India have been solid partners in the fight against Covid-19. Appreciate Singapore's role as a logistics hub and oxygen supplier. Their gesture of deploying military aircraft to help us speaks of our exceptional relationship. However, irresponsible comments from those who should know better can damage long-standing partnerships. So, let me clarify- Delhi CM does not speak for India.'[39] India's External Affairs Ministry also tweeted, 'Singapore Government called in our High Commissioner today to convey strong objection to Delhi CM's tweet on "Singapore variant". The Indian High Commissioner clarified that Delhi CM had no competence to pronounce on Covid variants or civil aviation policy.'[40] The whole episode turned out to be quite humiliating for Kejriwal, a man who clearly harbours national ambitions but falls desperately short of aptitude and skill.

However, Kejriwal didn't let one shameful incident deter him. He raised another issue with the Indian government's vaccination policy, hoping this time around it would stick. It did.

Other politicians dutifully followed. As the country braced itself for the tsunami of the virus, the opposition parties began to question several decisions made by the Union government on vaccine availability and its purchase, centralized distribution, eligibility criteria and price. Back in March, when the vaccine drive had opened up to immunize folks over 45 years of age with comorbidities and those over 60 years of age, Kejriwal had announced that if the Centre provided enough doses, he would put in place systems by which all of Delhi would be vaccinated in three months. With that, he also suggested, 'The Centre should make vaccines open for all
