why historians believe his ascension to rule to be somewhat of a phenomenon. Lord Gupta reorganized the government and assigned officials to maintain the rights of the people. Indian society enjoyed a peaceful time while the Guptas were in power. This period of time is also known as the India Golden Era. Architecture, philosophy, technology, astronomy and various other subjects were recorded in books but almost all of them have been lost over time.

During the Gupta Empire, a number of important structures were built including the Puranas of Vyasa, the Ellora caves and Ajanta caves. These caves were richly decorated and built with very high ceilings. The Shakuntala and the Kamasutra were both created by Kalidasa, who borrowed from past works made by Vatsyayana. Arybhatta made several mathematical discoveries including the formulation of zero.
