```
    Stimulus: true,
    process: true,
    module: true,
  },
};
```

We also want to upgrade our Tailwind configuration to pick up on React's `.jsx` or `.tsx` files that might contain Tailwind classes to include:

chapter_04/01/tailwind.config.js

```
module.exports = {
  content: [
    "./app/views/**/*.html.erb",
    "./app/views/**/*.turbostream.erb",
    "./app/helpers/**/*.rb",
    "./app/javascript/**/*.js",
    "./app/javascript/**/*.tsx",
    "./app/javascript/**/*.ts",
    "./config/initializers/simple_form_tailwind.rb",
  ],
}
```
