17. Debugging Ruby 291
Printing Things 291
The Ruby Debugger 292
Pry 296
Debugging Performance Issues with Benchmark 298
What's Next 299

18. Typed Ruby 301
What's a Type? 301
Official Ruby Typing with RBS 303
Ruby Typing with Sorbet 309
What's Next 313

19. Documenting Ruby 315
Documenting with RDoc 315
Adding RDoc to Ruby Code 318
Running RDoc 322
Documenting with YARD 323
What's Next 326

Part III — Ruby Crystallized

20. Ruby and the Web 329
Ruby's Web Utilities 329
Using the CGI Class to Handle Cookies 331
Templating with ERB 331
Serving Ruby Code to the Web 334
Ruby in the Browser with Web Assembly 342
What's Next 343

21. Ruby Style 345
Written Ruby Style 345
Using RuboCop 350
Using Standard 355
Ruby Style in the Large 356
Duck Typing 357
What's Next 371

22. Metaprogramming 373
Understanding Objects and Classes 373
Defining Singleton Methods 376
Inheritance and Visibility 382
Modules and Mixins 383
Metaprogramming Class-Level Macros 389
Using instance_eval and class_eval 398
Using Hook Methods 401
A Metaprogramming Example 407
Top-Level Execution Environment 409
What's Next 409
