or fruits itself or garnished with edible oils. Besides vegetables, salad can be prepared using non-vegetarian items like cooked meat, prawns, or any other fish.

Commonly the vegetables like beet root, carrot, cucumber, onion, radish, and tomato are used. Salads are dressed with leafy vegetables like cabbage both green and violet, capsicum, coriander leaves, celery leaves, curry leaves, mint leaves, lettuce, and spinach. Fruits such as apple, banana, grapes, guava, mango, papaya, pomegranate, pine apple and water melon, are the best choices of the fruit salad. Sprouted grams are also mixed with salads to enhance the flavour and nutritional values. In India, the vegetable salad made with curd is termed as Raita. There are different types of salad like Garden salad, Greek salad, Tuna salad, Japanese salad, Bean salad and are prepared for various occasions. Flavour of the salads can be changed by adding different types of salad dressings. These dressings are cream, olive oil, mayonnaise, vinegar, pepper and fermented milk product like curd.

Salad can be served as a starter of the meal or as a side dish to accompany any main dish. Salads served as a dessert is the sweet version of fruits with ice-cream, gelatin or whipped cream.

4.3.2 Different types of salads

i) Green salad or Garden salad

Some people made salad by using common raw vegetables and greens. Most commonly used vegetables are onion, tomato, celery, carrot, mushrooms, parsley, garden beets, cucumber, pepper, olives, and berries. Nuts and oil seeds are also included to enhance the taste and appearance. Leaves like mint, coriander and lettuce are the commonly used herbs to improve the palatability.

ii) Bound salad

These are the salads mainly for barbecues. They are thick salad made up by assembling sauces like mayonnaise.
