guests, weddings and even royal funerals. Before carving a fruit, it is important to collect all materials.

4.4.1 Equipment used for carving

4.49: **Carving Equipment**

Designs of flowers and birds are used in vegetable carving. The designs could be simple or complicated. They are mostly used as a decoration for garnish.

Pen: is used to outline the carving

Carving Knife: is used to intricate the design

4.50: **Carving Knife**

Peel Zester: is used to peel the pericarp of the fruits

Melon Baller: is used to scoop out various fruit balls. Normally melon and other soft fruits are scooped.

- **U shaped garnish tool**: is used to peel the skin of the fruit and to design intricate patterns and create a motif.

4.4.2 Types of Carving

There are two types of carvings

Skin Carving: In this type of carving the outer skin is removed to obtain the inner pulp which is of another colour. A unique carving can be made using both the skin colours.

4.51 **Skin Carving**

- **Three Dimensional Carving**

In this carving, fruits are cut so that it reveals a three dimensional effect. Mostly flowers are created using this technique. Before carving the outline of the pattern has to be drawn on its surface. It requires more time and concentration. Selection of right fruits depend on the type and purpose of carving. Before displaying, it should be refrigerated to get firm textured materials.
