

Plate 5.7 Ice cream

Food grains like rice and wheat are a part of staple food in India. Powdered rice and wheat is usually adulterated with starch. Rice is being adulterated with small 'grains of stones' to increase the overall weight per quintal by retailers.

Plate 5.8 Food Grains

Coffee powder is usually adulterated with tamarind seeds, chicory powder and also used to add bulk and colour. This can cause diarrhea, stomach disorders, giddiness and severe joint pains.

Plate 5.9 Coffee Powder

Tomato sauces mostly used in local fast food centres are, artificially made from 'pumpkin pulp', 'sugar', 'non-edible colours and flavours' with less amount of tomato. These sauces with 'artificial colours and flavours' are highly carcinogenic.

Plate 5.10 Tomato Ketchup

Tea leaves are often adulterated with chemicals and additives to add its aroma or flavour. Ordinary substances for adulterating tea include, Prussian blue - a non soluble, blue pigment commonly used to colour blueprints, crayons, paintings, and paint; it is non-toxic to humans. Indigo - a blue dye derived from the Indigo feratinctoria plant; it is non-toxic to humans. Graphite (Plumbago) - a naturally occurring mineral that is a form of carbon; commonly used as the "lead" in pencils.
