DO YOU KNOW?

IS:15495 – The Bureau of Indian Standards (BIS) has framed a standard code of practice of printing ink for food packing to be IS ; 15495. The ink under this guideline should not contain any hazardous chemicals that may get transferred to the food.

Hence avoid using printed paper to packing and serving foods.

- Tin containers once used, shall not be re-used for packaging of food
- Food products shall be packed in clean, hygienic and tamper proof bottles or containers.
- In case of multilayer packaging, the layer which comes in contact with food shall meet the requirements of packaging materials.

5.3 FSSAI

FSSAI (Food Safety and Standards Authority of India) is a statutory body governing the food safety of the country. It is an autonomous body established under the Ministry of Health and Family Welfare, Government of India. The Chairperson and Chief Executive Officer (CEO) have been appointed by government of India and head quartered at New Delhi.

FSSAI has been established under Food Safety and Standards Act 2006 which consolidates various acts and orders that have hitherto handled food related issues in various ministries and departments.
