- Heat oil in a tava and pour the mixture into it.
- When one side is cooked flip to the other side and cook.
- Serve hot with ketchup.

Q factor - A satchet of tomato ketchup.

Converting the recipe to get 5 servings – stepping up

Ingredients	Quantity for 5 servings	Cost (Rs.)
Egg	1 x 5 = 5 Nos.	25.00
Finely chopped onion	10 g x 5 = 50 g	01.00
Finely chopped tomato	10 g x 5 = 50 g	01.00
Grated carrot	10 g x 5 = 50 g	05.00
Finely chopped coriander leaves	2 g x 5 = 10 g	01.00
Pepper powder	2 g x 5 = 10 g	05.00
Salt	To taste	
Cooking oil (for frying)	10 g x 5 = 50 g	10.00
	Total cost	**Rs. 48**

Q factor- Tomato Ketchup = **Rs. 2 x 5 = Rs. 10**

Cost of 5 servings = **Rs. 58**

Cost per serving (40%) = **Rs. 11.60**

Overhead charges (20%) (Fuel, Disposable plate, Tissue, Labour) = **Rs. 5.80**

Profit (40%) = **Rs. 11.60**

= **Rs. 29**

Cost of the product for sale (Rounded off) = **Rs. 30**

Per cent of profit may be varied
